

Infrared Camera

Features

- Up to 30fps@720P resolution recording
- H.264 high compression coding
- Support “one-button” to start record or take photos
- Automatically switching infrared mode according to environmental light
- Support laser positioning while shooting
- Wearable, easy to carry

DVXG-1001

Technical Specifications

Model	DVXG-1001
Lens	
Horizontal Resolution	700TVL
Focus Length	3.2mm
Max Aperture	F2.2
Wide-angle	H:90°
IR Length	6m
Video	
Record Resolution	30fps@ 720P/VGA/QVGA
Compression	H.264
General	
Power Consumption	≤0.825W
Wire Length	0.8m
Dimension	26x65x40(mm)
